First vouchers from Venezuela in country musea. The species is distributed from southern Panama through Caribbean Colombia (Frost 2004. Amphibian Species of the World: an Online Reference. Version 3.0 [22 August 2004], accessible at <http://research.amnh.org/herpetology/amphibia/index.php> American Museum of Natural History, New York), and mentioned repeatedly as occurring in Venezuela (Barrio-Amorós 1998. *Acta. Biol. Venez.* 18:1-93; Gremone et al. 1986. Fauna de Venezuela, Vertebrados. Edit. Biosfera, Caracas, 269 pp.; La Marca 1997. In La Marca [ed.], Vertebrados Actuales y Fósiles de Venezuela, pp. 103-120. Museo de Ciencia y Tecnología de Mérida, Venezuela, 300 pp.) but no voucher specimens existed to confirm its presence. Barrio-Amorós (*op. cit.*) included it in his amphibian list of the country, stating that vouchers are needed. These voucher specimens confirm that this species occurs throughout the Maracaibo Lake basin in Venezuela.
